BLEND EMINI

FRONTEND ENGINEER WITH END-TO-END OWNERSHIP

Kumanovo, North Macedonia | blendxemini@gmail.com | **Portfolio** : blendemini.dev

SKILLS

Frontend

- HTML
- CSS,
- JavaScript
- React.js
- Vue.js
- Next.js
- Tailwind CSS
- GSAP
- Redux
- Storybook,
- Figma
- Photoshop

Backend

- Node.js
- Express
- Java
- Spring Boot
- MongoDB
- WordPress/PHP
- PostgreSQL
- Prisma
- Advanced Custom Fields (ACF)
- REST APIs

Tools

- Cypress
- Postman
- Docker
- Git
- Jira
- Slack

Frontend Engineer with a strong **Quality Assurance** background, focused on building scalable, user-centric web interfaces with high reliability. Specialized in **React**, **Next.js**, and **Vue.js**, with a solid foundation in **HTML**, **CSS**, and **JavaScript**.

Experienced in translating **Figma/XD** designs into production-ready UIs and ensuring quality through end-to-end testing with **Cypress** and **Playwright**. Comfortable working across the full delivery flow by integrating and developing **REST APIs** using **Node.js** (Express) and **Java** (Spring Boot) when needed.

Known for a strong attention to detail, product mindset, and the ability to bridge frontend development, QA, and backend collaboration, helping teams ship features with confidence and minimal regressions.

PROFESSIONAL EXPERIENCE

JAGAAD
Frontend Developer & QA Engineer

Milano,Italy
Aug 2024 - Present

JAGAAD SCALING

- Working with Vue 3 + TypeScript to build scalable, reusable UI components and high-quality frontend features.
- Developing new sections and pages for the upcoming version of the platform, ensuring responsiveness, accessibility, and performance.
- Collaborating closely with backend engineers to integrate APIs, refine data flows, and improve overall system reliability.
- Participating in team ceremonies, technical discussions, and architecture planning to support continuous improvement.

INPLACE

- Implemented automated end-to-end tests using Cypress to ensure platform stability, performance, and optimal user experience.
- Contributed to Angular-based frontend development, assisting with UI improvements, bug fixing, and debugging complex flows.
- Collaborated closely with the Help Desk team, leveraging deep product knowledge to investigate and resolve user-reported issues.
- Participated in cross-functional discussions to improve testing coverage, reduce regressions, and streamline release cycles.

ARBOREA

- Developed a fully custom WordPress theme using HTML, CSS, JavaScript, PHP, Bootstrap, and Advanced Custom Fields (ACF).
- Built ~75% of the project, including responsive layouts, reusable components, and dynamic page templates.
- Implemented server-side logic for features such as paginated content fetching, custom WP queries, and filtering systems to support complex layouts.
- Ensured performance, maintainability, and cross-device responsiveness across all sections of the site.
- Collaborated with designers and backend team members to deliver a polished, scalable product.

Sparkling Grape

- Developed reusable UI components and implemented a scalable, consistent design system using Vue.js and Tailwind CSS.
- Improved frontend functionality through clean state management, seamless API integrations, and optimized performance.
- Delivered fully responsive and accessible interfaces across all screen sizes and devices.
- Collaborated closely with the design team to ensure brand consistency and a polished, user-friendly experience.

MOVENZIA

- Assisted in the migration from Vue 2 to Vue 3, helping update components and improve code maintainability.
- Worked on responsive UI adjustments to enhance the overall user experience.
- Collaborated with backend and QA teams to support smooth integration and deployment.
- Occasionally helped with small backend-related tasks when needed.

PROJECTS

Fronty.ch – Freelance Fullstack Developer

- Created a responsive frontend using **React.js** and **Tailwind CSS** for a modern, user-friendly interface.
- Leveraged **Supabase** for backend features, focusing on secure database management and user authentication.
- Collaborated with stakeholders to align on design and functionality, achieving high performance and maintainability.

American Lens News – Freelance Fullstack Developer   **Dec 2023 - Jan 2024**

- Developed a full-featured news website with **Next.js, Tailwind CSS,** and **Supabase**.
- Implemented dynamic content display, category-specific routing, and responsive design for an optimal user experience.
- Built a secure admin panel with authentication and a custom CMS for seamless content management.

Jagaad Bootcamp - Frontend Developer   **Sep 2022 - Apr 2024**

Jagaad Academy (E-Commerce Website)

- Developed essential components including the shop, product view, cart, checkout, and billing sections. Focused on responsiveness and user-friendly navigation, ensuring compatibility across all devices.

NFT Marketplace

- Built a marketplace for minting, buying, and selling NFTs. Integrated wallet authentication and used React and Tailwind CSS for a visually engaging interface and seamless user experience.

Education

University "Nene Tereza" - Skopje   **Oct 2020 - Present**
Bachelor's Degree in Computer Science

- Relevant Coursework: Web Development, Database Management, Software Engineering, Data Structures, Algorithms

Jagaad Academy - Italy
Frontend Development Bootcamp
Sep 2022 - Apr 2023

ROI Academy - Kosovo
Java Development Bootcamp
Dec 2023 - Feb 2024
